Danza by Gigi Rigamonti  
Costa mediterranea

The stunning project which Gigi Rigamonti has produced for Costa Cruises is a tribute to Henri Matisse's Dance. Asked to create an installation that would take up an entire wall in the foyer of the new Costa Mediterranea, Gigi Rigamonti's idea takes the form of a huge painted panel on which 19 stylised figures dance. He made all the sculptures in La Rosa S.p.a's headquarters, where they were sculpted and painted to enhance their grace and dynamism.
